A11:

Attached is the compilation for the national monuments data call, as well as notes from Christina on some verifications and adjustments. Could you (or your bureaus) please review and let us know if you have edits or questions. Thank you again for your help with this!

- Updated proclamation vs. Antiquities Act; researched and included additional designation categories for clarity
- · Notated DOI and non-DOI land
- Reconciled duplicates with conflicting data points (such as differing acreage and locations)
- Converted square mileage references to acreage for consistency and for analysis
- Cleaned up references to National Parks versus National Monuments (a number of National Monuments were transferred/merged into National Parks); added notes to clarify
- Added additional columns to capture notes, and capture changes in National Monument size

• Revised "Synopsis of Values" as needed for brevity

--

	NPS	African Burial Ground National Monument	New York	New York	2006	Antiquities Act	0.35			Proclamation 7984 February 27 2006: In Lower Manhattan at the corners of Duane and Elk Streets lies an undeveloped parcel of approximately 15 000 square feet that constitutes a remaining portion of New York City's early African Burial Ground. The site is part of an approximately 7-acre National Historic Landmark established on April 19 1993. From the 1690s to the 1790s the African Burial Ground served as the final resting place of enslaved and free Africans in New York City, New York. It contains the remains of those intered as well as the archeological resources and artifacts associated with their burials. Prior to the date of this proclamation the site was administered by the General Services Administration (GSA) and it will be the location of a memorial to be constructed soon according to a design selected on April 29 2005 through a competition conducted by the GSA with the participation of the National Park Service (NPS) and other interested parties. The African Burial Ground National Monument will promote understanding of related resources encourage continuing research and present interpretive opportunities and programs for visitors to better understand and honor the culture and vital contributions of generations of Africans and Americans of African descent to our Nation;	
										Established to preserve for the benefit and enjoyment of present and future generations the outstanding paleontological sites known as the Agate Springs Fossil Quarries and nearby related geological phenomena to provide for continuing paleontological research and for the display and interpretation of the scientific specimens uncovered at such sites and to facilitate the protection and exhibition of a valuable collection of Indian artifacts and

	BLM	Basin and Range National Monument	Nevada	Ely	2015	Antiquities Act	703 585.00			July 10 2015: The Basin and Range area of southeastern Nevada is an iconic American landscape. The area is one of the most undisturbed corners of the broader Great Basin region which extends from the Sierra Nevada Mountains in the west to the Colorado Plateau in the east. The pattern of basin fault and range that characteries this region creates a dramatic topography that has inspired inhabitants for thousands of years. The vast rugged landscape redefines our notions of distance and space and brings into sharp focus the will and resolve of the people who have lived here. The burborken expanse is an invaluable treasure for our Nation and will continue to serve as an irreplaceable resource for archaeologists historians and ecologists for generations to come.

"WHEREAS it appears that certain public lands within the Beaverhead National Forest adjacent to the Big Hole Battlefield Monument are historic landmarks forming a part of the battle grounds where Chief Joseph and a band of Nez Perce Indians were defeated by a detachment of U ni ted States Soldiers; WHEREAS certain other public lands within the aforesaid national forest are contiguous to the said national monument and are necessary for the proper care management and protection of the historic landmarks included within the monument; and WHEREAS it appears that it would be in the public interest to reserve all of the aforesaid public lands as a part of the said national monument."
		Birmingham Civil Riehts National							In 1963 Birmingham was the epicenter of the American Civil Rights Movement. Activists like Rev. Dr. Martin Luther King Jr. Rev. Fred Shuttlesworth Rev. Ralph Abernathy Sr. and countless unnamed heroes gathered there to demand equality for a I people. The activists planned the nonviolent marches and protests of the Project C (for Confrontation) or Birmingham campaign. When Dr. King was jailed for participating in marches through Birmingham he wrote the famous April 16 1963 Letter from a Birmingham Iail declaring 1 am in Birmingham because injustice is here. The events that took place in Birmingham in 1963 became agalvanizing force for the passage of the Civil Rights Act of 1964. The Birmingham Civil Rights National Monument includes the A.G. Gaston Motel the headquarters for Project C where Dr. King and Rev. Abernathy and Shuttlesworth stayed and held strategy sessions ad meetings during the Birmingham campaign. They also staged marches were served a subpoena and held press conferences on the premises. Dr. King and his colleagues announced the negotiated resolution of the campaign in the motel courtract on May 10 1964. Hours later a loom evolded negotiated

N	NPS	Casa Grande National Monument	Arizona	Coolidge	1918	Antiquities Act	480.00	472.50		Grande" or Great House a multistoried earthen-walled structure surrounded by the remains of smale to buildings and a compound wal. The Great House was constructed by the Holoham people who farmed the Gial Svalley of south-central Arizona from ca. AD 300-1450. Casa Grande Ruins Reservation was both the first prehistoric site and the first cultural site to be set as dieb by the United States government. The site became a national monument on August 3. 1918. under the authority of the Antiquities Act and was transferred to the National Park Service on that date.	
В		Carrizo Plain National Monument	Ca ifornia	Bakersfield	2001	Antiquities Act	204 107.00			Proclamation 7393 January 17 2001: Full of natural splendor and rich in human history the majestic grasslands and stark ridges in the Carrizo Plain National Monument contain exceptional objects of scientific and historic interest. Since the mid-1800s large portions of the grasslands that once spanned the entire four hundred mile expanse of California's nearby San Joaquin Valley and other valleys in the vicinity have been e iminated by extensive land conversion to agricultural industrial and urban land uses. The Carrizo Plain National Monument which is dramatically bisected by the San Andreas Fault zone is the largest undeveloped remannal of this ecosystem providing crucial habitat for the long-term conservation of the many endemic plant and animal species that still inhabit the area. Casa Grande Ruins Reservation was set aside by President Benjamin Harrison on June 22 1892 to protect the "Casa	
N	NPS	Carlsbad Caverns National Park	New Mexico	Carlsbad	1923	Antiquities Act	719.22	46 427.26		Established as Carlsbad Cave NM and redesignated a NP through the 71st Congress. Established to protect "a limestone cavern known as the Carlsbad Cave of extraordinary proportions and of unusual beauty and variety of natural electration; and WHEEREA beyond the spacious chambers that have been explored other vast chambers of unknown character and dimensions exist; and WHEREAS the several chambers contain stalactites stalagmites and other formations in such unusual number size beauty of form and variety of figure as to make this a cavern equal if not superior in both scientific and popular interest to the better known caves."	
N		Capulin Volcano National Monument	New Mexico	Capulin	1916	Antiquities Act	640.42	792.84		Established as Capulin Mountain NM then redesignated as Capulin Volcano NM in 1987. "WHEREAS Capulin Mountain located in Townships twenty-nine and thirty North Range twenty-eight East of the New Mexico Principal Meridian. New Mexico is a striking example of recent extinct volcanoes and is of great scientific and especially geologic interest."	
N	NPS	Capitol Reef National Park	Utah	Torrey	1937	Antiquities Act	37 060.00	241 234.29		Established as NM and redesignated as NP in 1971 through 92nd Congress. No. 2246 - Aug. 2 1937 - 50 Stat. 1856: Whereas certain public lands in the State of Utah contain narrow canyons displaying evidence of ancient sand dune deposits of unusual scientific value and have situated thereon various other objects of geological and scientific interest; and Whereas it appears that it would be in the public interest to reserve such lands as a national monument to be known as the Capitol Reef National Monument:	
N	NPS	Cape Krusenstern National Monument	Alaska	Kotzebue	1978	Antiquities Act	560 000.00	627 190.67		Proclamation 4615 December 1 1978: The area of northwest Alaska known as Cape Krusenstern contains an archeological record of great significance. The Cape's bluffs and its series of one hundred fourteen horizontal beach ridges hold an archeological record of every major cultural period associated with habitation of the Alaska coastline in the last 5000 years. The ungleated lands lying inland including the Kakagrak Hi Is the Rabbit Creek area and others have an older archeological record dating back to pre-Eskimo periods of at least 8000 years ago. This continuum of evidence is of great historic and scientific importance in the study of human survival and cultural evolution. There are in this area examples of other unique natural processes. The climatological conditions are conducive to the formation of Naleds one spectacular example of a still recognizable illinoisian glacial esker a formation which is over 100 000 years old. The unique geologic process of erosion and sediment transport in this area created and continues to create the beach ridges in which is preserved the archeological record of the beach civil reations. Also found in the area is a wide variety of plant and animal species from the marine life along the shoreline and its lagoons to the landap opulations such as musk occan Dall sheep carboba und many smaller species.	
В	BLM	Canyons of the Ancients National Monument	Colorado	Dolores	2000	Antiquities Act	175 160.00			June 9 2000: Containing the highest known density of archaeological sites in the Nation the Canyons of the Ancients National Monument holds evidence of cultures and traditions spanning thousands of years. This area with its intertwined natural and cultural resources is a rugged landscape a quality that greatly contributes to the protection of its scientific and historic objects. The monument offers an unpara leded opportunity to observe study and experience how cultures lived and adapted over time in the American Southwest.	
N		Canyon de Chelly National Monument	Arizona	Apache County	1931	Congress/Proclam ation	83 840.00		83 840.00	A I on Indian trust land. Authorized by Congress and established through proclamation. "WHEREAS it appears that the public interest would be promoted by including the lands hereinafter described within a national monument for the preservation of a great number of cliff dwellings and for their archaeological interest."	
В	BLM	California Coastal National Monument	Ca ifornia	Marina	2000/2014/2017	Antiquities Act	3 937.00			Proclamation 7264 January 11 2000: The islands rocks and pinnacles of the California Coastal National Monument overwhelm the viewer as white-capped waves crash into the vertical cliffs or deeply crevassed surge channels and frothy water empties back into the ocean. Amidst that beauty lies irreplaceable scientific values vital to protecting the fragile ecosystems of the California coastline. At land's end the islands rocks exposed reefs and pinnacles off the coast above mean high tide provide havens for significant populations of sea mammals and birds. They are part of a narrow and important flight lane in the Pacific Flyway providing essential habitat for feeding perching nesting and shelter. The California Coastal National Monument is a biological treasure.	

NPS	Castillo San Marcos National Monument	Florida	Fort Marion	1924	Antiquities Act	18.51	19.31	Established as Pt. Marion NM in 1924 transferred to NP5 in 1933 and redesignated Castillo San Marcos NM in 1942. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "in his discretion to declare by public proclamation historic landmarks historic and prehistoric structures and other objects of historic or scientific interest that are studed upon the lands owned or controlled by the Government of the United States to be National monuments and may reserve as a part thereof parcels of land the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected"
NPS	Castle Clinton National Monument	New York	New York	1946	Congress	1.00		Authorized in 1946 and established in 1950 when land was ceded to Federal Government. War of 1812 Memorial. "Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled That the Secretary of the Interior is authorized to accept on behalf of the United States title to the site comprising approximately one acre and situated in Battery Park. New York City of the historic structure known as Castle Clinton together with such structure and any other improvement on or appurtenant to such site."
NPS	Castle Mountains National Monument	Ca ifornia	Barstow	2016	Antiquities Act	20 920.00	20 902.00	February 12 2016: The Castle Mountains area bounded on three sides by Mojave National Preserve (Preserve) possesses outstanding natural cultural and historical values representing some of the finest characteristics of the eastern Mojave Desert. It connects water flow and wildlife corrisors of the Preserve along the Ca ifornia-Nevada border. Beneath the shadow of Hart Peak lie rich cultural and historic resources including Native American archeological sites and the historic gold mining phost town of Hart. Exposed geologic features contribute to the area's outstanding scenery, Shaped by millions of years of geologic forces the ruseed Castle Mountains are emillematic of the Mojave landscape.
Abolished (Now w Yes SC Park)			,	1924	Antiquities Act			transferred to SC through 84th Congress. "AND WHEREAS by section 2 of the Act of Congress approved June 8 1906 (34 Stat. 225) the President is authorized "In his discretion to declare by public proclamation historic landmarks historic and prehistoric structures and other objects of historic or scientific interest that are situated upon the lands owned or controlled by the Government of the United States to be national monuments and may reserve as a part thereof parcels of fand the limits of which in all cases shall be confined to the smallest area compatible with the proper care and management of the objects to be protected"
NPS	Cedar Breaks National Monument	Utah	Cedar City	1933	Antiquities Act	5 701.39	6 154.60	The first protection afforded this unique region was in 1905 when it was included as a part of the Sevier (now Disie) National Forest and was administered by the Forest Service of the U.S. Department of Agriculture. The area was established as a National Monument by Presidential proclamation on August 22 1933 and was placed under the administration of the National Park Service of the U.S. Department of the Interior. "WHEREAS it appears desirable in the public interest to exclude. certain lands from the Disic National Forest Utah and include said lands within a national monument for the preservation of the spectacular cilifs canyons and features of scenic scient fit can deducational interest contained therein*
,	Cesar Chavez National		, , , , , , , , , , , , , , , , , , , ,	,				October 08 2012: The property in Keene California known as Nuestra Señora Reina de la Paz (Our Lady Queen of Peace) (La Paz) is recognized for its historic significance to César Estrada Chávez and the farm worker movement. César Chávez is one of the most revered civil rights leaders in the history of the United States. From Numble beginnings in Yuma Arizona to the founding of the United Farm Workers (JUPV) movement. César Chávez knew firsthand the hard work of farm workers in the fields across the United States and their contribution to feeding the Nation. He saw and experienced the difficult conditions and hardships that confronted farm worker anillies. And through his hard work perseverance and personal sacrifice he dedictical his life to the struggle for respect and

	NPS/BLM/State/Priv	Craters of the Moon National								Redesignated a National Preserve in 2002 through 107th Congress. "WHEREAS there is located in townships one south one and two north ranges twenty-four and twenty-five east of the Boise Meridian in Butte and Blaine Counties Idaho an area which contains a remarkable fissure eruption together with its associated volcanic cones craters rifts lava flows caves natural bridges and other phenomena characteristic of volcanic action which are of unusual scientific value and general interest; and WHEREAS this accontains many curious and unusual phenomena of great educational value and has a weird and scenic landscape peculiar to Itself; and WHEREAS it appears that the public interest would be promoted by reserving these volcanic features as a National Monument." The Craters of the Moon National Monument and Preserve encompasses approximately 738 000 acres of BLM- and NPS-administered federal land 8 000 acres of state land and 7 000 acres of private land. The decisions made through this planning process apply only to the federal land within the Monument boundary referred to as "the planning area". On November 9 2000 Presidential Proclamation 7373 expanded Craters of the Moon National Monument from roughly \$4 000 acres to approximately 753 000 acres including the 738 000 acres of federal land. The President signed this proclamation to ensure protection of the Great Rift volcanic rift zone and its associated features. The Proclamation also placed the lands under the administration of both the National Park Service (INPS) and the Bureau of Land Management (ELIM) with each agency having primary management authority over separate portions. In addition on August 21 2002 Public Law (Pt.) 107:23 116 Statute (Esta, 1) 502 designated the NPS portion of the expanded Monument as a National Preserve. While BLM and NPS operate under different laws regulations and policies which apply to different portions of the planning area the proposed plan provides a piontly developed

	Freedom Riders National							, , ,	On Mother's Day 1961 a Freedom Riders bus was attacked at the Greyhound Bus Station in Anniston and was attacked again and burned just six miles out of town adjacent to Route 202. The Freedom Riders remained on board the bus at the station in Anniston while a mob struck with bats and pipes and slashed the bus tires. As the bus moved away from the station and out of town the mob including members of the Ku klux fan followed. When the bus broke down the mob resumed terrorizing the Freedom Riders. The bus was firebombed and members of the mob tried holding the doors shut to trap the Freedom Riders inside. Eventually the Freedom Riders were able to make It off the burning bus but continued to be harsaced until Alabama State Troopers dispersed the crowd. The Freedom Riders were a group of civil rights activists both African American and Caucasian who tested integration laws on the interstate bus system. The incident in Anniston was quickly reported in newspapers and shown on television screens across the country shocking the nation and inspiring more people to join the fight against the injustices of Jim Crow laws in the American South. The Freedom Riders Autonal Monument includes the former

FWS/Bureau of Reclamation (USBR	Hanford Reach National Monument Harriet Tubman	Washington	Benton Franklin and Grant Counties WA	2000	Antiquities Act	194 450.93			Proclamation 7319 June 9 2000: The Hanford Reach National Monument is a unique and biologically diverse landscape encompassing an array of scientific and historic objects. This magnificent area contains an irreplaceable natural and historic legacy preserved by unusual circumstances. Maintained as a buffer area in a Federal reservation conducting nuclear weapons development and more recently environmental cleanup activities with limits on development and human use for the past 50 years the monument is now a haven for important and increasingly scarce objects of scientific and historic interest. Bisected by the stunning Hanford Reach of the Collumbia River the monument contains the largest remnant of the shrub-steppe ecosystem that once blanketed the Collumbia Plates Basin. The monument is also one of the few remaining archaeologically rich areas in the western Collumbia Plateau containing well-preserved remnants of human history spanning more than 10 000 years. The monument is equally rich in geologic history with dramatic landscapes that reveal the creative forces of tectonic volcanic and erosive power. The monument is a biological treasure.	e

Yes US Forest Service Yes US Forest Service	Part of Sequoia National Forest - Giant Sequoia National Monument Part of Tongass National Forest	Ca ifornia		2000	Antiquities Act Antiquities Act	327 769.00 43.00		Proclamation 7295. April 15. 2000: The rich and varied landscape of the Giant Sequoia National Monument holds a diverse array of scientific and historic resources. Magnificent groves of towering giant sequoias the world's largest trees are interspersed within a great belt of coniferous forest jeweled with mountain meadows. Bold grantitic domes spires and plunging gorges texture the landscape. The area's elevation climits form about 25 800 to 9 700 feet over a distance of only a few miles capturing an extraordinary number of habitats within a relatively small area. This spectrum of ecosystems is home to a diverse array of plants and animals many of which are are neomic to the southern Siera Nevada. The monument also and animals many of which are are not endemic to the southern Siera Nevada. The monument also has many archaeological sites recording Native American occupation and adaptations to this complex landscape and historic remnants of early Euroamerican settlement as well as the commercial exploitation of the glant sequois. The monument sequence exemplary opportunities for biologists geologists paleontologists archaeologists and historians to study these objects. Established under the USFS as Old Kasaan NM. Transferred to the NPS in 1933. then transferred back to the USFS in 1955.

Yes US Forest Service	Part of Tongass National Forest	Alaska	Admiralty Island National Monument	1978	Antiquities Act	1 100 000.00		Proclamation 4611 December 1 1978: Admiralty Island is outstanding for its superlative combination of scientific and historic objects. Admiralty Island contains unique resources of scientific interests which need protection to assure continued opportunities for study. Admiralty Island has been continuously inhabited by Tinglis Indians for approximately 10 000 years. Archeological sites and objects are plentiful in the areas of Angoon. Chalk Bay Whitewater Bay and other born the Island. These resources provide historical documentation of continuing value for study. The continued presence of these natives on the Island add to the scientific and historical value of the area. The cultural history of the Tlingti Indians is rich in ceremony and creative arts and complex in its social legal and political systems. Admirally provides a unique combination of archeological and historical resources in a relatively unspolled natural ecosystem that enhances their value for scientific study. Subsequent to exploration and mapping by Captain George Vancouver at the end of the 18th century. Russian fur traders 'Nanke whalters and miners and prospectors have left objects and sites on Admiralty which provide valuable historical documentation of white settlement and exploitation of the island and list resources. Admiralty Island is rich in historics tructures and sites including whaling attainors canneries old mining structures and old village sites for example. Killisnoo Village where aw whaling and herring saltery station were established in 1880. Unusual aspects of the Island copylogical include its exceptional distribution of animal species including dense populations of brown bears and eagles because of the Island ecology include the separation from the mainland. This peculiar distribution of brown bears, and the largest unspolied costal Island ecology include the signal ecology includes the highest known density of nesting bald eagles (more than are Gound in all the other States combined); large numbers of Alaska brown bears,
Yes US Forest Service	Part of Tongass National Forest - Misty Fjords MM	Alaska	Misty Fjords National	1978	Antiquities Act	2 285 000.00		scientific and historical features unique in North America. It is an essentially untouched two million-arce area in the Coast Mountains of Southeast Alaska within which are found nearly all of the important geological and ecological characteristics of the region including the complete range of coastal to interior climates and ecosystems in a remarkably compact area. Among the objects of geologic importance are extraordinarily deep and long flords with sea cliffs rising thousands of feet. Active glaciers along the Canadian border are remnants of the massive ice bodies that covered the region as recently as about 10 000 years ago at the end of the Pleistocene epoth. However there have been periodic glacial advances and retreats in more recent historic periods. Some of the area has been free from glaciation for only a short period of time creating the unusual scientific phenomenon of recent plant succession on newly exposed alon with the accompanying animal species. The Behm Canal the major inlet at the heart of the area is more than fifty miles long and extraordinary among natural canals for its length and depth. The watershed of the LUNR kiver which comprises the northern portion of the Misty Fiords area has it headwaters in Canada. It is steeply mountainous and glaciated and contains the full range of ecosystems and climates from interior to coastal. Mineral springs and lava flows add to the uniqueness of the area and its value for scientific investigation. South of the Unuk the Chickamin River System and the Le Duc River originate in active glaciers and terminate in Behm Canal. Further south Rudyerd Bay Fiords and Walker Cove are surrounded by high cold lakes and mountains extending eastward to Canada. First inhabitants of Misty Fiords may have settled in the area as long ago as 10 000 years. The area contains cultural sites and dejects of historical significance including traditional native hunting and fishing grounds. Later historical evidence includes a mid-1800°s. Misty Fiords is unique in that the area in

вім	Rio Grande del Norte National Monument	New Mexico		2013	Antiquities Act	242 555.00		March 25 2013: In far northern New Mexico the Rio Grande Wild and Scenic River flows through a deep gorge at the edge of the stark and sweeping expanse of the Taos Plateau. Volcanic cones including the Cerro de la Olla Cerro San Antonio and Cerro de IVal pt up from this surrounding plateau. Caryons volcanic cones wild river and native grasslands harbor vital wildlife habitat unique geologic resources and imprints of human passage through the landscape over the past 10 000 years. This extraordinary landscape of extreme beauty and daunting harshness is known as the Rio Grande del Norte and its extraordinary array of scientific and historic resources offer opportunities to develop our understanding of the forces that shaped northern New Mexico including the diverse ecological systems and human cultures that remain present today.
Bureau of Ocean Energy Management (BOEM)	Rose Atoll Marine National Monument	Approximately 130 nautical miles east- southeast of Pago Pago Harbor American Samoa	n/a	2009	Antiquities Act	13 436.00		Rose Atoll is one of the most pristine atolls in the world. It supports a dynamic reef ecosystem that is home to a diverse assemblage of marine species many of which are threatened or endangered. Its shallow reefs are distinct from those found in other Samoan islands. The marine area provides nesting grounds for green and haskshall turtles. The waters within and surrounding the Rose Atoll Monument are frequented by numerous large predators such as whitelip blacktip and gray reef sharks snappers jacks groupers and barracudas. Species that face depletion elsewhere are found in abundance at Rose Atoll including glant claram Manori wrasse large parrotifishes and blacktip whitelip and gray reef sharks. Humpback whales pilot whales and porpoise have all been spotted at Rose Atoll.
